THE FEI CODE OF CONDUCT

FOR THE WELFARE OF THE HORSE

The Fédération Equestre Internationale (FEI) expects all those involved in international equestrian sport to adhere to the FEI's Code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinated to competitive or commercial influences.

1. At all stages during the preparation and training of competition horses, welfare must take precedence over all other demands. This includes good horse management, training methods, farriery and tack, and transportation.
2. Horses and Athletes must be fit, competent and in good health before they are allowed to compete. This encompasses medication use, surgical procedures that threaten welfare or safety, pregnancy in mares and the misuse of aids.
3. Events must not prejudice horse welfare. This involves paying careful attention to the competition areas, ground surfaces, weather conditions, stabling, site safety and fitness of the horse for onward travel after the event.
4. Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over. This covers proper veterinary care, competition injuries, euthanasia and retirement.
- 5. The FEI urges all involved with the sport to attain the highest levels of education in their areas of expertise.**

A full copy of this Code can be obtained from the Fédération Equestre Internationale, Chemin des Délices 9, 1006 Lausanne, Switzerland. Telephone: +41 21 310 47 47. The Code is available in English & French. The Code is also available on the FEI's website: <http://www.fei.org/about-us/standards>.

6. VETERINARY TREATMENT AND DESIGNATED TREATMENT AREAS AT FEI EVENTS:

The 2010 FEI Veterinary Regulations include changes in the approach to the procedure for permitting treatments at FEI events, and introduces a requirement that such treatments must take place in designated treatments areas. Designated treatment areas allocated only for this purpose must be provided at events, but certain treatments as specified below may take place elsewhere by agreement with FEI Veterinary Officials (FEI Veterinary Delegates or members of the FEI Veterinary Commission) i.e. in own stables. These changes also reflect the new approach to the FEI List of Equine Prohibited Substances since 5th April 2010 which now contains an exact list of substances that are prohibited under FEI rules. See www.feicleansport.org.

Permission to undertake treatments and the location where they take place, is under the control and the authority of the FEI Veterinary Officials present. The following documentation must be completed when permission to treat is required.

Equine Therapeutic Use Exemption (ETUE) Form 1 - Authorization for Emergency Treatment (i.e. involving medication containing Prohibited Substances). This is issued by a FEI Veterinary Official and must also be countersigned by the Ground Jury.

- Treatment generally must take place in allocated designated treatment areas for this purpose unless by special agreement with FEI Veterinary Officials. The only exception to this is a clear emergency, when a retrospective ETUE may be considered, but may not be authorized in all cases
- **Equine Therapeutic Use Exemption (ETUE) Form 2 - Declaration for administration of altrenogest to mares competing in FEI competitions.** This must be submitted before the start of the event. No Ground Jury countersignature is needed.

- Treatment may take place in own stables

Medication Form 3 - Authorization for the use of Medication not on the list of Prohibited Substances (i.e. rehydration fluids and antibiotics).

For permission to administer these substances by injection, naso-gastric tube or nebulisation (i.e. with saline only) it is necessary to complete Medication Form 3. For other administration methods of such substances not on the Prohibited Substances list i.e. in an oral form, this form is not required. The form does not need to be countersigned by the President of the Ground Jury.

- Treatment may be required in the designated treatment areas, but in the case of some treatments i.e. intravenous fluids, or lack of sufficient treatment areas agreement may be made for this to be undertaken in own stables
- Agreed treatment areas are required for the supervised activities of Physical Therapists, but such areas for this activity may be the horses own stable.

An agreed treatment area and supervision is not required for simple treatments such as "Ice", water, cold laser, "magnetic therapies", "heated blankets" etc.

Supervision of all such treatments by FEI Officials may take place directly or by requesting to see a copy of the relevant authorization. No treatments may take place without coming under such control and authority except in the case of a clear emergency, when a retrospective authority may be considered, but may not be issued in all cases.

Notes to Organising Committees

FEI Veterinary delegates are to work with Organizing Committees in advance to ensure that treatment areas are available and fit for purpose. They are also to ensure that stewards are aware of the simple guidance above with regard to when treatments areas and permission forms are required and are not.

Organizing Committees are to also ensure that there are adequately trained stewards who liaise fully with FEI Veterinary Officials to assist with the supervision of treatment areas in order to meet the above criteria. If such stewards are not available the FEI Veterinary officials are to designate individuals that can fulfill such a role. The organizing committee is also responsible for making sure the veterinary officials have an office space with a copy machine close to the FEI stables available to them so as to facilitate the required paperwork process. The FEI Veterinary Delegate is required to make only ETUE 1 available to the Ground Jury. ETUE 1, ETUE 2 and MF 3 are required to be kept by the FEI Veterinary Delegate and referenced in their report to the FEI.

I. STABLE SECURITY/STEWARDING AT INTERNATIONAL EVENTS

Minimum requirements to ensure implementation of Veterinary Regulations, Art.1005.2 – SEE ALSO ANNEX 13 EVENTING RULES

1. ACCESS TO STABLE AREA

For an optimal stable security, the stables must be completely enclosed within a suitably restrictive perimeter (stable area) which will act both as a deterrent to the admission of unauthorised persons and to the exit of horses. The area must be sufficiently large to allow horses to be evacuated from the stables in an emergency but still remain within the confines of the perimeter. However, several disciplines allow in specific situations a lower level of stable security (see discipline rules).

Whenever possible the stable area must include only stables; lorries, caravans, etc., should not be permitted within the area unless specifically needed as accommodation for horses and/or grooms.

Access to stables must be limited to those persons indicated in VRs Art. 1005.2.5.3. It is essential that the official issuing authorised access be a responsible person of seniority within the OC.

2. CONTROL OF ACCESS

A control system must operate at all entrance gates so that there is an efficient and reliable method of identifying those who enter and leave the stable area at any time.

Extra vigilance must be used in establishing the identity of persons and reasons for entering the stables during the night.

3. STEWARDING OF STABLE AREA

At least one stable steward, directly responsible to the Chief Steward, must be present or readily available in the vicinity of the stable area 24 hours a day during the entire duration of the event. He may be assisted by deputies as required. The steward/deputies must regularly patrol the stable area, without establishing any predetermined pattern, to discourage any form of illegal practices or abuses to horses. Any misdemeanours must be reported immediately to the stable steward who must, in turn, report to the Chief Steward.

The duty of the stewards is therefore to safeguard the welfare of the horses and to prevent any form of illegal practices.

4. GROOMS

It is appreciated that grooms wish to remain with their horses during the night. Only grooms duly registered with the OC are permitted to do so.

The Person Responsible must ensure that his/her grooms, or any other authorised persons with access to his/her horses, are familiar with the security and stewarding procedures operating at the event attended.

5. MOVEMENT THROUGHOUT EVENT GROUNDS

Movement of horses between the stables, practice, grazing and main arena must be strictly controlled. The optimum layout for Jumping and Dressage disciplines is attached. It is appreciated that flexibility will be required depending on the requirements of other disciplines.

6. STEWARDING OF PRACTICE ARENA

The Chief Steward must ensure that all practice arenas are adequately stewarded all the time that they are officially open. He must also ensure that these arenas are subject to random control when they are officially closed.

7. GRAZING AREA

It is recommended that a grazing area be provided at all outdoor events, and that this be subject to random control. If available, horses must only be grazed or walked in hand within this area.

The Foreign Judge/TD at events will be specifically asked to check that the relevant requirements are met as reasonably as can be expected, depending on the discipline, and to indicate clearly any shortfalls, following which consideration may be given to altering the category of the event in future.

IV. MCP FORM

ORDER FORM FOR FEI APPROVED SAMPLING KITS

The MCP is effected in Groups I and II, by Testing Teams of veterinarians and technicians and by Laboratories all directly instructed by the FEI.

At international events outside the MCP area or at those which are covered by the MCP but at which sampling is required when the Testing Teams are not present, the Veterinary Commission/Delegate will operate in accordance with Vet. Regs Chapter VI.

To provide for this eventuality, FEI Approved Sampling Kits should be ordered directly on the form provided, from:

V. IAEJ Guidelines and Checklist for Media Operations at Equestrian Events

As for last year every international event, with the exception of Championship Team events, will need to appoint a 'Rider Co-Ordinator' for their event. This important initiative was proposed by the Professional Event Riders Association (PERA) and approved by the FEI Eventing Committee, and is intended to improve communication in general between riders and officials. It was felt the system worked very well in 2000.

The objective is to establish the Rider Co-Ordinators as the focus when serious concerns are expressed by riders. The idea is for the Co-Ordinator to meet with the Ground Jury and/or Technical Delegate everyday (starting on the first day of dressage) to discuss any rider concerns over fences, ground conditions, roping & course distance etc (this is particularly important at the start of events).

The Rider Co-Ordinator will be chosen from a list of suitably qualified riders (were possible with Three & Four* experience) and be entered to ride at the event.

In the past the channels of communication between riders and officials have not always been clear. It has been easy to be 'wise after the event', and hopefully this initiative will improve co-operation between all parties making it possible to be 'wise at the event', particularly for the welfare of the horses and safety of riders.

CAVALIER COORDINATEUR LORS DE CCI/CIC

Comme pour l'année dernière, chaque concours international, à l'exception des Championnats par équipes, devra nommer un «cavalier coordinateur». Cette importante initiative fut proposée par l'Association des Cavaliers Professionnels de Concours Complet (PERA), et a reçu l'approbation de la Commission de Concours Complet de la FEI, dans le but d'améliorer la communication générale entre cavaliers et officiels. Le système semble avoir bien fonctionné en 2000.

Le principal objectif de ce cavalier coordinateur est de centraliser toutes les informations lorsque de sérieuses inquiétudes sont émises par les cavaliers. Il s'agit pour le cavalier coordinateur de rencontrer chaque jour (dès le premier jour de Dressage) le Jury de Terrain et/ou le Délégué Technique et de passer en revue chaque inquiétude émise par tout cavalier, que ce soit à propos des obstacles, des conditions du terrain, de la mise en place des cordes ou des distances à parcourir, etc... (ceci est particulièrement important avant le départ du concours).

Le cavalier coordinateur devra être choisi parmi une liste de cavaliers qualifiés (si possible au bénéfice d'une expérience de niveau Trois et Quatre*) et dont le nom figure parmi les entrées audit concours.

Par le passé, les voies de communication entre cavaliers et officiels n'ont pas toujours été très claires. C'était facile d'être «sage après le concours», mais nous espérons que cette initiative permettra d'améliorer la coopération entre toutes les parties, rendant possible «la sagesse durant le concours», particulièrement pour le bien-être des chevaux et la sécurité des cavaliers.

Press Service

The Press Service should be operating according to the size/significance of the event and not later than six months prior to the event.

Press Officer

The Press Officer has a key role to play in the organisation of an event. He / she has a good knowledge and understanding of horsesport and media operations in general. He / she is in charge of the press office and has clear recognition within the Organising Committee by being part of the core team.

The main role of the Press Officer and his/her staff is to ensure the smooth running of the press office and related services and provide information, before, during and after the event in a proactive way. An active media information policy, where news is spontaneously and systematically offered, is the best service that can be offered to the media.

Supporting staff: depending on the number of accredited journalists, sufficient additional staff should be available (e.g. to ensure that the necessary copies of results and starting lists are made, the working space is tidy and clean, to accompany journalists to the media stands if needed, etc.)

Accreditation

All members of the media should be clearly identified; therefore a proper accreditation system needs to be put in place.

The accreditation process shall start six months prior to the event and all media shall be accredited before the event starts. This will allow the Press Officer to determine the size of the Press Centre and prepare adequate facilities. The Press Officer needs to pay full attention on the acceptance of accreditation requests and only grant accreditation to professional members of the media.

At any event, regardless the level of importance, press accreditation shall give access to the following areas: press centre; press stand; training areas; catering areas (including non-public catering services, when applicable); mixed zone or Competitors stand

In accordance with FEI Regulations, press accreditations do not give access to the stabling area. Generally press accreditation does not give access to the field of play, with the exception of accredited photographers wearing special identification (bibs, armlets), or when special activities for the media are organised, such as course walks.

Press Conferences

A press conference shall be organised when there is a need for it and important news needs to be communicated to the media. If the news does not require direct interaction between the organisation and the media, there is no need of a press conference. The subject and main points on the agenda of the press conference, as well as the main speakers shall be communicated to the media in advance.

Running order

The Press Officer shall conduct the press conference according to the following basic running order:

- Presentation of the table
- Announcement of results of the competition (top of the leader board), and updated standings if the competition is part of a series
- Short comment on the competition (number of starters, number of spectators, any relevant information).
- Press Officer asks the first open question to the interviewed person ("how do you feel," what is your opinion on," etc.)
- Q&A (Q&A shall be controlled by the Press Officer, who shall invite one media representative at a time.)
- Thank the guests on stage and to the audience, misc. announcement (programme of the next day, etc.)

Facilities

Press Centre

A standard press centre is composed of the following areas:

- **Public areas:** welcome desk; safe/storage area; press working area; photo working area; an information area (pigeon holes/trays with starting lists, results etc.); press conference area;
- **Private areas:** press officer's office; photo manager's office; webmaster's office; editorial staff working space;

Work stations

The working space shall be minimum 1 metre per person, one electrical plug per position. Photographers need a working space, preferably in a dedicated area.

Telecommunication system

In case a payphone system is installed detailed invoices shall be made available. Phone calls can either be free of charge or charged to the user, but rates shall not be overtaxed and communicated in advance to the accredited media. Free of charge wireless capability is preferred.

Press Conference Room

According to the importance of the event and the press attendance, the press conference shall be held either as a formal conference with a moderator, or as an informal briefing between the interviews and the press.

A press conference room is most of the time arranged in theatre style, with a podium for the speakers. The number of seats shall be relative to the number of accredited press (approx. 1 seat every 5 accredited press).

Podium: essential: tables, chairs, water / preferable: tablecloth, name plates, backdrop, decoration.

Audio: speakers, microphones, audio outputs for TV and radio

TV: platform at least 30 cm high, 1 metre wide, positioned opposite the stage at the end of the room

Press Stand

The press needs adequate space to watch and follow the competitions and take notes for their reports.

The press tribune shall be clearly identified and only accessible to accredited media and authorised personnel. A member of the press staff should be assigned to service this area.

Essential: reserved tribune; good view on the field of play; separate area from the public, not far from the mixed zone; entrance control, security. Preferable: tabled seats; electrical outlets; telephone/modem connection; monitors.

Press Parking

Parking should include a reserved area for the accredited press located at a reasonable distance from the showground and press centre.

PRESS INFORMATION

A constant flow of information regarding the event should be provided to the press before and during the event. According to the press mailing list, press releases and/or newsletters should be circulated via e-mail and the official website of the event. A press kit containing useful information such as programme of the show, entries, nationalities represented, prize money by class, history of the show, interview / presentation of key officials such as show president, show director, course designer, famous riders, side events such as charity actions, list of sponsors should be sent two months before the event. During the event, information should be provided through the distribution of: press releases, newsletters, flash quotes, press conferences. All information produced on site shall be made available to the non-attending media via fax, e-mail and the website.

Information should include:

Before the event: press kit; accreditation system; travel and accommodation details, car pass; timetable and general information about the event; list of participating nations/competitors; key contacts

During the event: biographies of the competitors; past winners of the event; venue: fact and figures; detailed schedule of the event, including press conferences and other activities for the press (guided course walks, stable visits, tours, forums, parties, etc.); sport description (for non-specialised media); starting lists; course plans; results; press releases.

Please note updated biographies of international competitors are available on the FEI website www.horsesport.org.

PHOTOGRAPHERS

Photographers are key members of the media. Due to the nature of their activity, there are specific requirements which should be met to allow them to work effectively.

General requirements

- Accredited photographers have priority in the allocation of lockers for storage of their equipment, as well as for parking spaces.
- A separate working area for photographers should be set up in the Press Centre
- It is important that a Photo Manager is appointed to liaise with photographers and ensure that all requirements are met.
- There shall be a dress code for photographers if the event is televised

Identification

All accredited photographers must be provided with a special identification (armlet, bib). This identification is clearly different from other badges and must be communicated to security personnel and technical officials. Bibs are to be numbered and recipients registered. A cash deposit might be asked to ensure return of the bib at the end of the event.

Photo positions

Positioning of the photographers during all phases of the event should be planned in advance by the Press Officer and the Photo Manager, and agreed with the technical officials. Position of TV cameras need to be taken into account while planning photographers' positions. TV has priority. Photo positions must be planned at a very early stage so that tickets are not sold to seats just behind the area. Photo positions might be either a defined area next to the competition arena, or a smaller clearly marked and roped-off zone with controlled access in the field of play. In the event of a lack of space either around the arena or inside, photographers should be allowed to shoot from the press stand.

Jumping: photo positions shall be organised inside the ring. Photographers should not leave the ring during the competition; they can however change position in between competitors. If there are too many accredited photographers, a rotation system will have to be arranged. The pockets should be placed so that riders can be photographed from the left and from the right. In addition, the photographers should have access to the arena at least at two of the four sides.

Lighting

It should be noted that photographers need more light in an indoor arena than what is required by TV (1000 lux). Photographers need 1200 lux in order to deliver optimal quality pictures.

CRISIS MANAGEMENT

There are four basic types of crisis that can occur during an equestrian competition. They are:

1. Competition related problem. i.e. major horse/rider/spectator accident
2. Veterinary / judicial related problem. i.e. abuse
3. Discipline related problem i.e. competition rules or conditions
4. General organisational problem. i.e. transport, access, electrical breakdown etc.

The Press Officer should always be involved in the crisis management team. The persons within the Organising Committee who are authorised to comment on the incident/accident shall be clearly identified and a detailed plan of action should be agreed in advance.

A press statement shall be transmitted to the press as soon as the exact circumstances and plan of action have been decided. In the meanwhile, the Press Officer shall be in charge of the initial response or holding statement to the press:

"The organisers are investigating the facts surrounding the incident. As soon as these are available, a full statement will be issued and a press conference held."

Replies, either written or verbal, should be brief, calm, objective, clear and factual.

The complete document of the FEI Crisis Management Plan is available from the FEI.
