III. THE FEI CODE OF CONDUCT FOR THE WELFARE OF THE HORSE

The Fédération Equestre Internationale (FEI) expects all those involved in international equestrian sport to adhere to the FEI's Code of Conduct and to acknowledge and accept that at all times the welfare of the horse must be paramount and must never be subordinated to competitive or commercial influences.

1. At all stages during the preparation and training of competition horses, welfare must take precedence over all other demands. This includes good horse management, training methods, farriery and tack, and transportation.
2. Horses and athletes must be fit, competent and in good health before they are allowed to compete. This encompasses medication use, surgical procedures that threaten welfare or safety, pregnancy in mares and the misuse of aids.
3. Events must not prejudice horse welfare. This involves paying careful attention to the competition areas, ground surfaces, weather conditions, stabling, site safety and fitness of the horse for onward travel after the event.
4. Every effort must be made to ensure that horses receive proper attention after they have competed and that they are treated humanely when their competition careers are over. This covers proper veterinary care, competition injuries, euthanasia and retirement.
5. The FEI urges all involved with the sport to attain the highest levels of education in their areas of expertise.

A full copy of this Code can be obtained from the Fédération Equestre Internationale, Chemin de la Joliette 8, CH-1006 Lausanne, Switzerland. Telephone: +41 21 310 47 47. The Code is available in English. The Code is also available on the FEI's website: www.fei.org.

2. HEALTH REQUIREMENTS

GENERAL

In accordance with the FEI Code of Conduct for the Welfare of the Horse it is imperative that all Horses at FEI Events are physically fit and free from infectious disease before being allowed to compete.

ENTRY OF HORSES

Required health tests and vaccinations: Equine Influenza as per FEI rules
Quarantine period: See notes attached
Specimen Import Licence applied: See notes attached

ERA Instruction 12 states:

i. No horse may take part in a race run under the Rules of the ERA, unless it is certified by a veterinary surgeon to be correctly vaccinated against Equine Influenza (in accordance with paragraph (ii), (iii) and (iv) below or according to the relevant manufacturer's schedule submitted to and approved by the ERA).

ii. The passport should be endorsed thus by a veterinary surgeon who is neither the owner nor trainer of the horse:

a. That the horse has received (a primary course of vaccination consisting of) two vaccinations given no less than 21 days apart and no more than 92 days apart.

b. In addition, where sufficient time has elapsed subsequent to the primary vaccinations, the passport must be similarly endorsed to show that the horse has received a booster vaccination no less than 150 days and no more than 215 days after the second vaccination of the primary course of vaccination.

c. That the horse has received booster vaccinations at intervals of not more than a year apart or such lesser time as the ERA may, in an emergency, decide.

iii. A horse which has, in the opinion of a Veterinary Officer, received any vaccination (against equine influenza or other diseases) within seven days prior to the race, will not be permitted to start, unless

FEI APPROVED DRESSAGE SCHEDULE BOU THIB (UAE) 26-28 February 2016

specifically permitted to do so by the Stewards.

iv. In calculating the days, the day of the vaccination is exclusive.

v. Trainers are advised that all ponies brought to a racecourse or official training track must be vaccinated in accordance with the provisions of (ii), (iii) and (iv).

NOTES ON VACCINATIONS:

In addition to Instruction 12, the Quarantine section of this Brochure contains important and binding conditions and requirements related to the import of horses, including import vaccination requirements.

- Please note that both injectable and intranasal vaccines are acceptable for the above purposes.

- Trainers should be aware that the UAE has special import rules in respect of Influenza vaccination, which are over and above ERA requirements. Therefore some horses which comply with the Rules in respect of Influenza vaccination may not meet the UAE import conditions and may require an additional vaccination in order to do so. Early consideration of the Rules and the import requirements should allow vaccinations to be timed so as to comply with both sets of requirements.

QUARANTINE

Horses from all countries will need to meet, as a minimum, the UAE Temporary import conditions appropriate to the country of origin.

A list of more detailed quarantine and import conditions can be found in the DIRC brochure.

Whilst in the UAE, Carnival horses will be stabled in Regional Groups, in designated Quarantine facilities, separated from local horses. Access to these areas will be restricted (please see Guidelines for DRC Quarantine Facilities).

PLEASE NOTE: Horses entering UAE which the connections wish to send to local stables for training (non-isolation stables), must meet UAE permanent import conditions and travel with the appropriate permanent import health certification. Horses will be isolated and tested for disease, vaccinated and treated as necessary to allow them to return to the country of origin or to any other nominated country to which the connections wish to send them.

POST ARRIVAL RECOVERY PERIOD

When possible, horses arriving after the initial flights will spend the first 6 days in a separate quarantine location from that of horses already stabled in the DRC quarantine facilities.

PLEASE NOTE: After arrival in the UAE, horses will be restricted to their allocated compound at the Quarantine facility for up to 48 hours, post arrival depending upon the length of journey.

During this time they will not be allowed out on to the exercise track; they will be closely monitored for recovery from the journey and blood samples will be taken.

- Horses which travel for less than six (6) hours (stable to stable) will be confined for a minimum of 12 hours after their arrival

FEI APPROVED DRESSAGE SCHEDULE BOU THIB (UAE) 26-28 February 2016

at the facility.

- Horses travelling for more than six (6) hours (stable to stable) will be confined for a minimum of 48 hours after their arrival at the facility.

Each compound has a walking ring.

The rules are intended to reduce the risk of disease developing in horses and possibly spreading to other horses.

SECURITY ACCESS TO BARNS

Access to Barn areas and secure areas is strictly monitored. All personnel will need to carry a security badge/card that will be issued upon arrival and will detail areas to which personnel are permitted access.

Trainers, their staff and contracted riders will have right of entry. Quarantine access for other persons, e.g. visiting international veterinary surgeons, physiotherapists and similar specialists will be considered, but notification in writing must be forwarded to the Dubai Racing Club prior to arrival for security access approval.
